MARBLE HAS NO LIMITS

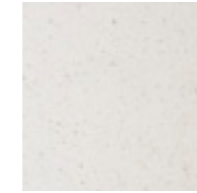

COMPAC technological marble is an innovative and advanced product that expresses the new aesthetic and functional trends of modern architecture, while respecting the environment.

The homogeneity, range of colours, finishes and formats together with an exceptional hardness, non-existent porosity, and the fact that it is easy to clean, make this a contemporary product and an ideal alternative to natural stone when designing unique personalised environments and projects, based on the tastes and requirements of the end user.

Finishes

- POLISHED**
Gloss finish
- MATT**
Matt finish
- BUSH HAMMERED***
Rough finish
- SILKEN***
Very pleasant smooth texture
- OVO**
Egg texture imitation
*Only available in 3/4" and 1 1/4" thicknesses
**Available from 5/9" thickness
Not available in OVO finish

- E** Exclusive colours for façade and external use
- I** Internal use only
- Internal and external use

Not recommended for kitchen worktops

Principal advantages

- Minimal water absorption
- Lighter: savings in transport and easy to fit
- Highly resistant to impact and deflection
- Resistance to fire, rated as A2 (Euroclass)
- Low maintenance costs and easy to clean
- Large format sizes and made-to-measure pieces
- Technological marble: resins and other binding agents are added to 91-96% natural marble
- Polish after intensive use to regain the original sheen

Edges

- Ref. 01: ROUNDED EDGE
- Ref. 02: POLISHED BEVEL EDGE
- Ref. 03: COVED EDGE
- Ref. 04: BULLNOSE EDGE
- Ref. 05: OGEE EDGE

Applications with Carborundum® for staircases and ramps
